

JOB DESCRIPTION

GREENEST MAYOR OF LONDON

The people of London are seeking a Mayor of London who will be the greenest mayor their city has ever seen.

OBJECTIVE

To ensure London is 100% carbon-free by 2050.

ESSENTIAL

1. Renew London's homes: Retrofitting for energy efficiency
2. Keep the masses moving: Investing in the transit system
3. Maximising London's energy resource: A city-wide distributed energy network
4. Get London cycling: Everyone who can cycle, does cycle
5. The sun shines on London: Develop a city-wide solar strategy
6. Carbon-free freight: Reduce the climate cost of delivery
7. Beyond diesel: Cutting emissions from vehicle use
8. Closed-loop London: Maximise the city's resource efficiency
9. Cool under the collar: Scale up workplace retrofitting

DESIRABLE

Governance
